

## **Configuring XMPP chat client on your mobile phone.**

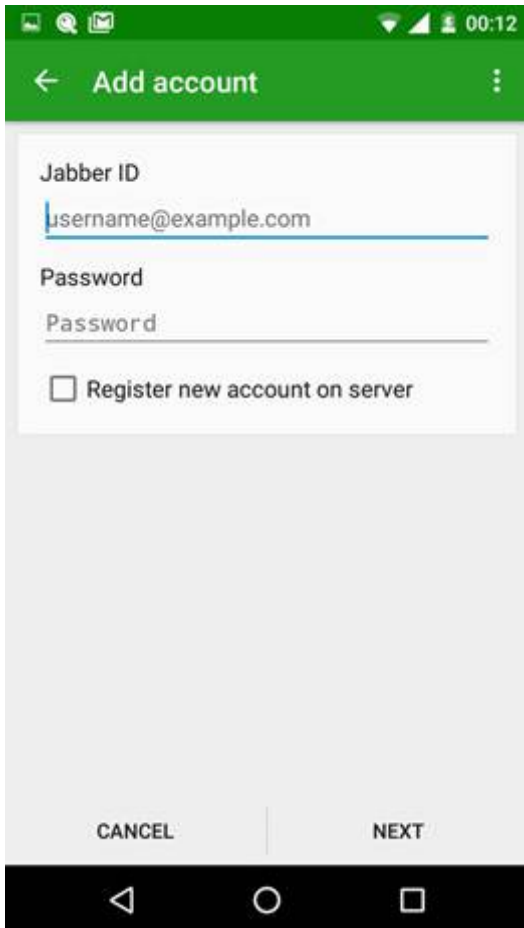

Conversation being stable and has strong community base we recommend to use *Conversation* .

### **How to Install**

Download Conversation client from F-Droid / web URL (<https://f-droid.org/repository/browse/?fdid=eu.siacs.conversations>)

### **Creating account**

From home screen go to Manage Account (Choose from top right menu  ) -> Add New Account. Below screen appears

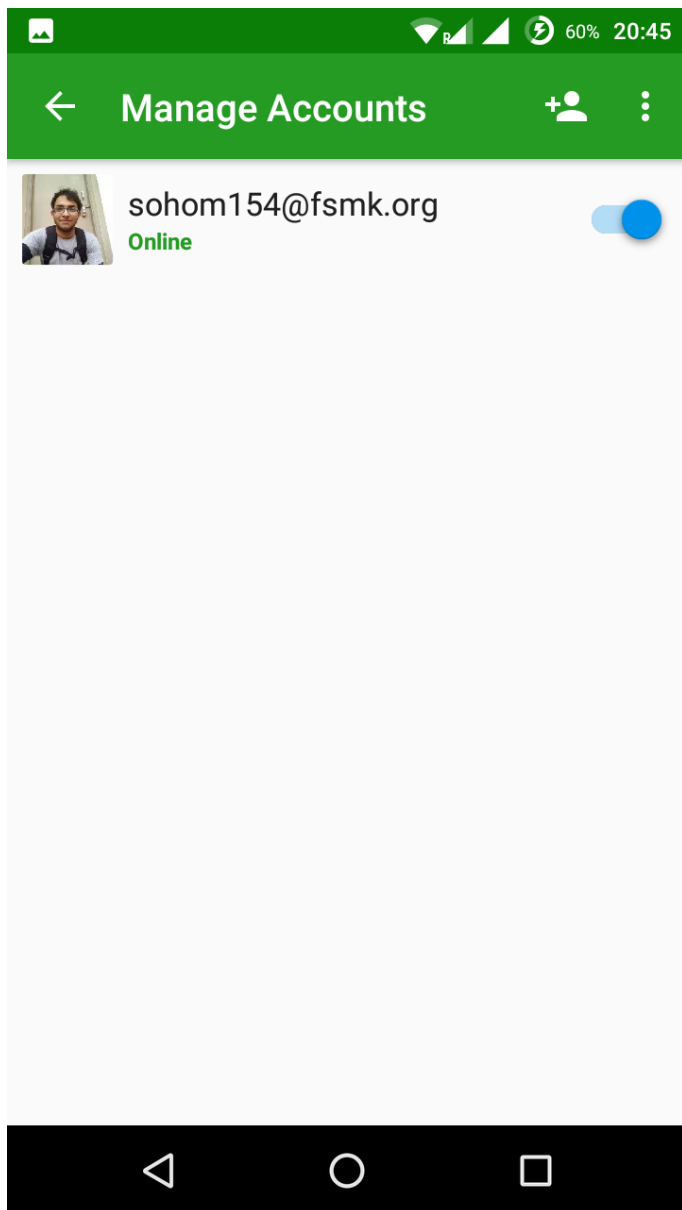

Under Jabber ID provide desired user name in below format

<user\_name>@fsmk.org

Next choose a strong password

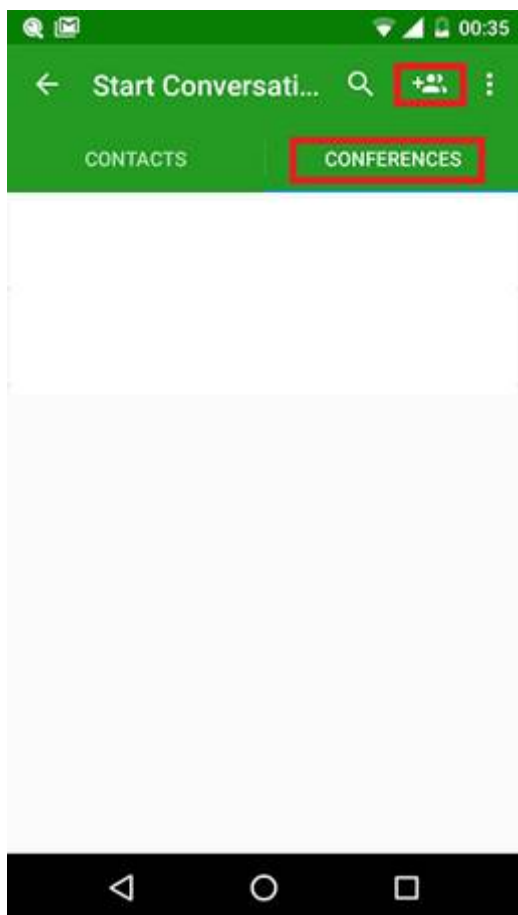

Check “Register new account on Server”

Once account has created it appears as shown below.

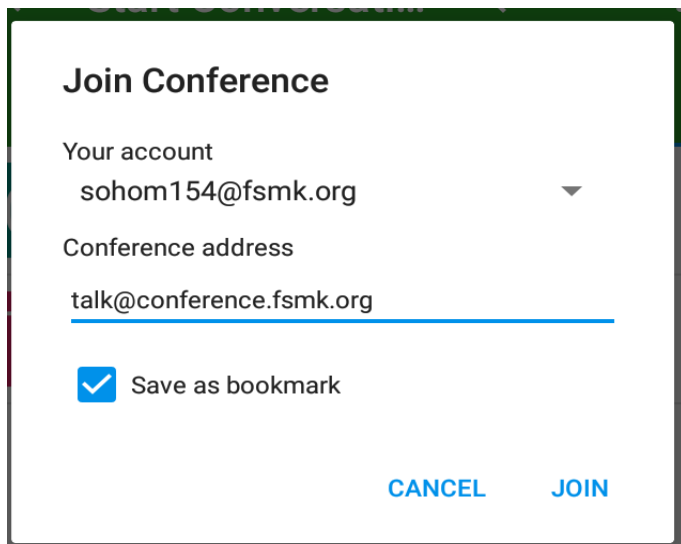

Go back to main screen->Choose Add  option

Select Conferences tab and choose join 

Below pop up appears

Choose your account under *Your Account* and type conference.fsmk.org under Conference address box

Chose join after checking Save as bookmark
